SC PERFORMANCE GOAL

2010 Goal:

By 2010, SC's student achievement will be ranked in the top half of the states nationally. To achieve this goal, we must become one of the fastest improving systems in the country.

2020 Vision:

By 2020 all students will graduate with the knowledge and skills necessary to compete successfully in the global economy, participate in a democratic society and contribute positively as members of families and communities.

REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Students and teachers at Jonesville Middle School had a successful 2008-2009 school year. As our second year as a middle school, many efforts were made toward successfully accomplishing our goals.

We were very pleased that the The Academic Challenge Team competed in the Academic Festival and won overall in the Old English Consortium division. This was the first time we have ever won as a middle school.

The Special Education students PACT scores increased over a 30% margin as compared to the previous year.

Students in the Physical Science class participated in the Carowinds Coastermannia Contest. Although this year's class did not win, the students learned a lot about physics as they worked after school on their models.

This year marked the second year that middle school students could earn at least one high school credit toward a diploma in the areas of Physical Science, English, and Algebra I. We continued to show improvements in our 8th grade classes offered for high school credit. The Physical Science class had a 95% passing rate on the End of Course Exam. Keyboarding students could gain proficiency in Keyboarding and take Integrated Business Applications 1 their freshman year. This year, 92% of all eighth graders achieved proficiency in Keyboarding.

Students are given the opportunity to choose electives they are most interested in, such as Art, Music, PE, Band, Introduction to Computers, Keyboarding, Tuned into Reading, Business and Career, and our new elective Plugged into Math.

Our faculty continues to analyze data obtained from MAP (Measures of Academic Progress) and benchmark testing. Academy Time was improved this year. Students were grouped according to their MAPS/Benchmarks scores so that the Academy teacher could concentrate on moving one or two groups of students up one level instead of moving several groups of students to different levels.

Teachers were able to post lesson plans electronically through the use of OnCourse. Teachers were also able to allow other teachers to view their lesson plans on an individual basis. This led to collusion among teachers to allow them to teach related topics simultaneously.

JMS students were also active in the many extracurricular activities offered: band, volleyball, basketball, football, softball, baseball, track, golf, cheerleading, Beta Club, SGA, yearbook, and First Priority.

In conclusion, while our students did not achieve the state-mandated levels, they did improve in their classes. Our students have learned a great deal this year, and we expect them to carry that into the next year, both at Jonesville K-8 and Union County High School.
